Solution to Base Model Run

Greg Macfarlane

December 22, 2011

For this assignment, the students are required to complete the following table with numbers from their model run. The numbers should be the same, if they used all the same inputs.

Table 1: 2009 Base Scenario - Requested Metrics

Measurement	Value	Source File
Total lane miles	8,498	`Base2009_log.txt`
Total freeway VMT	19,944,835	`Base2009_log.txt`
Transit share of college trips	10.65%	`Base2009_log2.txt`
Work trip share of all trips	13.57%	`Base2009_log2.txt`
Daily LRT riders	49,843	`Base2009_2_Route_ByMode.csv`
Peak CRT riders/revenue mile	3.609	`Base2009_2_Route_ByMode.csv`
Daily passengers who walk to route 830 (M830)	5814.65	`Base2009_2_Route.dbf`
PM volume on I-15 S near 3300 S	25,949	`V70_2040_4pd.managed.detailed.net`
AM V/C on 500S near Rice-Eccles	0.72	`V70_2040_4pd.managed.detailed.net`
